

P26R6 AC Series

P26R6 AC – planar magnetics in the Off-line active clamp forward topology.

Key features & specifications

Topology	Off-line active clamp forward
Power range	140–196 W
Input	38–430 V in
Standard	IEC 60950

Optimized for isolated converters with synchronous rectification. Planar construction, low profile, and windings that can be embedded in the converter main PCB.

Data sheets
